this book is a ready reference for architects, students of architecture, and architectural historians. it is a must read for all. it can be used for reference purposes as an architectural encyclopedia and not just a book on indian architecture. it can also be used to study the art of planning and urban design. it will also be a useful addition to the library of every architect,

planner and architect.
masterpieces of traditional
indian architecture traces the
evolution of architectural
forms and their usage over the
centuries. it explains how
different cultures, religions
and people have contributed
in the making of distinctive
styles. these have created
stupendous architectural
marvels: from the towering
minars of islamic architecture
to the exquisite cave
architecture of the buddhists,

from the dazzling dilwara temple to the glorious sun temple. islamic architecture in india by satish grover pdf free 11 the first book on the islamic architecture in india was published in 1982 by satish grover. it is a revision of his book published earlier in 1976. it was republished again in 1995 by the same publisher and the publisher was impressed by the large number of copies sold. in 1981, he was the architect for

the development of a new plan for the construction of the buddhist temple of myorong in thailand. it was his association with the buddhist community, through their organizations, that brought about this opportunity. in the early 1980s, he became an architectural associate of the asian federation of architects. during this period, he was the architect for the the residence of the president of the asian federation of architects.
